Awards Applications Due *Tomorrow* Friday 10/14

Tomorrow is the deadline to submit a nomination for our inaugural [Energy Efficiency Leadership Awards](#). The application process is simple, so we encourage you to take a few minutes to nominate your organization/company or a project on which you've worked. We look forward to showcasing all of our awards entries and honoring the best of the best. [Nominate now.](#)

Registration Open for November 29 Meeting and Awards Ceremony

We've just opened registration for our November 29 Fall Meeting and the Awards Ceremony for the inaugural Energy Efficiency Leadership Awards in Richmond. The agenda includes several networking opportunities, breakout sessions and the awards reception. [Register today.](#)

Featured Member of the Month: DGA

Virginia could reduce carbon emissions by over 2.5 million tons annually by 2030 from industrial energy efficiency, while saving money and making manufacturers more competitive. That's according to Business Gold member David Gardiner and Associates, October's Featured Member of the Month, and their Alliance for Industrial Efficiency. [Read their report.](#)

Welcome New VAEEC Members!

Welcome to the newest [VAEEC members](#): AECP (Associate); Center for Energy Science and Policy at George Mason University (Academic); and Johnson Controls (Business Gold).

[is available for anyone to watch.](#)

In early December we'll host our second webinar, this one with a focus on building codes. Stay tuned for the date and registration details.

Welcome Jessica Greene to VAEEC Staff

Please join us in welcoming Jessica Greene as VAEEC's new Program Coordinator. Jessica will head up our membership outreach and PACE programming. She led our recent "PACE in Virginia" webinar and [wrote a nice summary.](#)

Seeking Sponsors for Nov. 29 Meeting and Awards

A number of leading companies, organizations and local governments have lined up to sponsor our upcoming Fall Meeting and Awards Ceremony. There are still slots available for Silver and Bronze level sponsors as well as a sponsor for the Breakout Sessions.

[Learn more about sponsorship opportunities and benefits.](#)

The Association of Energy Conservation Professionals (AECP) is a energy education and advocacy organization. Our primary focus is serving as a support and resource group for the Virginia Weatherization Assistance Program.

The Center for Energy Science and Policy at George Mason University CESP's seeks to lead innovations for energy security, sustainability and resilience. This includes exploring energy's critical nexuses with health, water, climate, food, transportation, national security, and conflict resolution. Research on these multidisciplinary relationships is where Mason has world class expertise.

Johnson Controls International Plc. is a global diversified technology and multi industrial leader serving a wide range of customers in more than 150 countries. We create intelligent buildings, efficient energy solutions, integrated infrastructure and next generation transportation systems that work seamlessly together to deliver on the promise of smart cities and communities.

The latest on Building Codes in Virginia

Building codes are one of the most important and effective tools we have to advance energy efficiency at the state level. And Virginia's Board of Housing and Community Development is charged with updating those codes. There has been a lot happening with the Board and plenty on the horizon, so we wrote a [short blog post](#) to get you up to speed. Stay tuned for a webinar on this topic in December.

Thank You to Trane, Platinum Sponsor of our Fall Meeting and Awards Ceremony

Our events get rave reviews, and we couldn't do it without the generous support of our sponsors. We are proud to welcome Trane as the Platinum

sponsor of our upcoming [Fall Meeting and Awards Ceremony](#).

About our sponsor: [Trane](#) is a world leader in air conditioning systems, services and solutions. We control the comfort of the air for people in homes and many of the world's largest and most famous commercial, industrial and institutional buildings. And we're applying Trane's expertise in environmental technology and energy conservation to make a difference in energy efficiency around the globe.

TRANE®

The Virginia Energy Efficiency Council seeks to provide a forum for stakeholder interaction and to assess and support programs, innovation, best practices, and policies that advance energy efficiency in Virginia.
