DOE plans wasteful rollback of Residential Lighting Program

VAEEC formally intervenes in Dominion DSM proceeding

The Department of Energy plan to roll back federal energy efficiency light bulb standards will have wide-reaching consequences in VA and nationwide. ACEEE released this [statement](#), positing that the decrease in regulatory standards would lead to an additional 80B kWh of energy usage per year, “about the combined usage of all households in Pennsylvania and New Jersey.”

[Read More](#)

In October 2018, Dominion Energy proposed eleven new Demand-Response (DR) programs, ten of which are for energy efficiency, as part of their ten year commitment to energy efficiency programs under the Grid Transformation and Security Act of 2018 (GTSA). The application totals \$225.8 million of the \$870 million committed under the GTSA, and includes six residential programs and five non-residential programs
