

THE VALUE OF MEMBERSHIP

The Virginia Energy Efficiency Council shares winning strategies and best practices that keep pushing the industry forward, faster as we collectively work to identify energy efficiency barriers and opportunities in the Commonwealth. Virginia's decision makers look to VAEEC as they craft energy policies that will shape our economy and environment for generations.

As you know, energy efficiency has tremendous potential to **drive economic growth, create jobs, shrink utility bills, conserve natural resources, and reduce pollution**. The VAEEC is the only organization dedicated to telling that story, showing those results, and representing our industry.

AS A MEMBER, YOU RECEIVE:

- Access to **member exclusive resources**, including our membership directory, jobs-opening board, and legislative updates
- **Networking** opportunities with potential new clients and industry leaders
- **Visibility** with your logo proudly displayed on our website and at our biannual forums
- Free or reduced **registration** to VAEEC biannual forums attended by over 100 industry professionals
- Access to **training and learning opportunities** through our webinar series

Connecting leaders. Amplifying voices.

WHO WE ARE

The Virginia Energy Efficiency Council is the voice for the energy efficiency industry in the Commonwealth. Our membership is comprised of leading businesses, local governments, nonprofits, utilities, schools, and state agencies. The Council's goal is to ensure energy efficiency is recognized as an integral part of Virginia's economy and clean energy future.

"Chesterfield's membership in the VAEEC not only provides an invaluable networking opportunity with energy professionals throughout the state, but relays important information about energy policy and programs in the Commonwealth. They have been instrumental in keeping us abreast of new technologies, products, and projects related to energy efficiency."

- Julia Reynolds, Chesterfield County
