

VAEEC Spring 2019 Forum

Shaping VAEEC's Work

Facilitated by VAEEC Board Chair, David Koogler

Panel Structure & Logistics

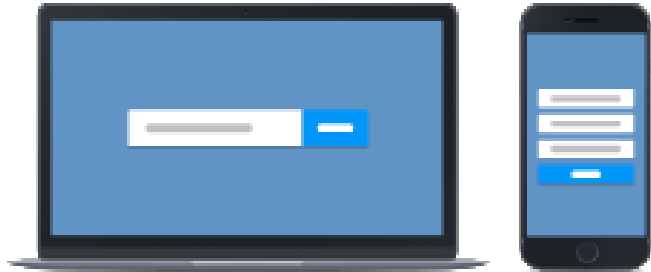

- This session provides you with the opportunity to collaborate with other energy efficiency leaders.
- The goal of this session is to both discuss what is happening in the Commonwealth's energy efficiency sphere and to provide you with the opportunity to influence VAEEC's strategic plan for the next three years.
- Using Live Polling, the audience will vote for up to two topics from a pre-selected list of topics that you believe the VAEEC should prioritize
- Once the four topics are chosen, attendees will self-select into one of the breakout groups to have a deeper discussion on each chosen topic.
- The larger group will reconvene after 30 minutes to share a summary of their discussions.

Topics Up for Discussion

- Dynamic Rate Structures / Time of Use
- Efficient Transportation
- Emerging Technologies
- Grid Transformation & Security Act Implementation
- The Intersection between Energy Efficiency and Solar
- Local Government Collaboration
