

# Utility Programs & VA Clean Economy Act Program Evaluation

## PRIMARY GOALS

- ▶ Maximize the deployment and success of both gas and electric utility energy efficiency programs and technologies in Virginia.
- ▶ Ensure long-term success of energy efficiency policies (e.g. VA Clean Economy Act)

## SECONDARY GOALS

IOUs provide a wide array of program options for all customers

High-energy users implement energy-efficient measures

Successful implementation of the Pay-As-You-Save (PAYS) model for electric coop customers

## METRICS & RESULTS

### Legislation

Sent out weekly legislative recaps to membership during the General Assembly session.

Testified in support of energy efficiency legislation during the General Assembly session

### Stakeholder Engagement

Hosted two (2) utility program discussions at VAEEC Forums

Wrote two (2) blog posts on utility program updates

Attended Dominion EE stakeholder meetings & regularly engaged with staff; brought together stakeholders to expand low-income program eligibility

### State Corporation Commission Proceedings

Filed notice of participation in Dominion's EM&V docket and began strategizing with the VAEEC legal team

Submitted comments to the SCC with input from a variety of VAEEC members

Intervened in one (1) Demand-Side Management (DSM) proceeding for Dominion
