

PROGRAM OVERVIEW

for fiscal year 2021

Total RGGI Funds for
Energy Efficiency:

\$92 Million

Total Funds for
Weatherization Deferral
Program:

\$16 Million

PROJECT OVERVIEW

- **39** Units
- **3** Roofs Replaced
- **3** PTAC HVAC Units Replaced
- **39** HVAC Exhaust Caps Replaced
- **\$93,195** Spent from the WDR Program Alone
- **2** Subcontractors Hired
- **2** New Staff Hired

CASE STUDY: NOTTOWAY COUNTY

Weatherization Deferral Repair (WDR) Funds Improving Senior Apartments

THE CHALLENGE

The seniors in the Deerfield Apartments are like much of Crewe, Virginia - **lifetime residents of the community on a fixed income**. When the

apartment homes deteriorated beyond what federal weatherization funds would cover, the residents were left with very few options to **improve their health, safety, and livelihood**.

THE SOLUTION

Using Weatherization Deferral Repair (WDR) funds - made possible by the RGGI auctions - local Weatherization Assistance Provider Project:HOMES was able to make **needed health and safety repairs** on 39 units of the Deerfield Apartments. "These funds were used to replace several roofs on the property to enable us to move forward with the [federal weatherization] energy improvements", said Bryan Burris, Director of Utility Programs, Energy Conservation at Project:HOMES. **"Without these additional resources, our agency would not have been able to serve this particular community."**
