

CASE STUDY: TOWN OF WOODSTOCK

Weatherization Deferral Repair (WDR) Funds Improving Low-Income Housing

PROGRAM OVERVIEW

for fiscal year 2021

Total RGGI Funds for Energy Efficiency:

\$92 Million

Total Funds for Weatherization Deferral Program:

\$16 Million

PROJECT OVERVIEW

- **13** Buildings Serviced
- **52** Units Repaired
- **3** Roofs Replaced
- **3** New Hires for WDR Work
- **24** Subcontractors Hired for WDR Work
- **4** Staff Promoted

ENERGY
SOLUTIONS

THE CHALLENGE

The Ridge Apartments are one of a limited number of

low-income housing

communities in Shenandoah

County. When the apartments

deteriorated beyond what federal weatherization funds

could address, the residents were left with **very few**

options to improve their health, safety, and

livelihood.

THE SOLUTION

Using Weatherization Deferral Repair (WDR) funds -

made possible by the RGGI auctions - local

Weatherization Assistance Provider Community Housing

Partners (CHP) was able to replace roofs and make

necessary repairs to 52 units of the complex. **"WDR**

allows us to return to clients who have applied for

weatherization but have been deferred for services

due to major home repairs needed", said Bradley

Strahm, Business Development Specialist at CHP. **"These**

clients do not have the financial resources to make

these home repairs, so many have been waiting for

several years before they can receive energy-saving

weatherization services."
